AMADRESS was established as a limited company.

From the very beginning our production lines are projected to be high tech in order to face the competitiveness in this market within in outside our country. The main structure and machinery are disposed to sewing varieties of cloth types such are: blouses, trousers and skirts, light-jackets, heavy-coats, trikota. Despite the fact of our momentum focus we are designed to switch easily in making whole our productions at very high level and we can provide you with very rich experience and top quality.

Our specialist and workers are the CORE VALUE of business. Managers and the chief of the production are connected with the cloth production for dozens of years, working previously in other cloth companies. Also our people on the production have very rich experience in different styles sewing and many of them are working with us from the very beginning.

A high standard of production, a wide range of possibilities in assortment and design, this is AMADRESS's offer. We produce ready-made clothing and guarantee customers for high quality, reliability, in proper time and correctness.

Number of employees: 200
