From a small workshop created in 1982, Tiffany Production has grown into one of the leading manufacturers in the textile industry in Serbia. This family company has always had the same goal – to produce quality clothing items that are in step with fashion trends in the world.

In addition to its core business Production Tiffany is the general distributor for Serbia one of the world's largest denim fabric producer Grupo Tavex from Spain. As a product of good cooperation between the two companies, created the Fashion Partner Group company in Valencia, which is a branch company Tiffany Production. Then it is officially registered brand TFY and protected as a Spanish brand.

Tiffany Production through its distribution network sells its products in more than 50 facilities.
