Zahida Čosić, Manager

Company Unikom promet d.o.o. Begov Han, Zepce was established in 1999. Their main activity is the production of protective clothing for various types of work clothing. The company exports over 90% of production to customers from ex YU countries and EU countries. About 10% of production is for domestic market. All exported products are made through loan business for well known customers.

The company has a goal to increase the share of finished products in order to reduce the share of loan projects. Thanks to professional approach to the production and quality of products, the company operates successfully and has a constant growth. They want to expand cooperation with companies from neighboring countries and the EU countries. The cooperation would be reflected in common market, production, procurement of materials, design and other.

Manager and owner of the company, Mrs. Zahida Cosic, strives to connect together young and creative people who can handle production and monitor market challenges, and with their own creations improve manufacturing process and product range.
