Company Melgushi Ltd was born after destroying of the communism dated on 1993 year and was registered like small business. At the beginning company owned 5 sewing machineries that are carry from Athena, Greece and first productions are confections and with destination entrance in the internal market but and for Monte Negro.

During the years 1995-98 company arrive to own until 25 machineries with 20 workers. Production was 5000-6000 pieces per day.

In 1999 are established new connections with Notingham company and after with COTONELLA. Except the underwear, have start to realize and other productions but everywhere in the area of confections.

Construction of the new building of the company creates new growth possibilities. Correctness in the work of their staff has been able to earn the truth of the clients and partners from abroad.

On 2001 are done registration in the Court and was known from the Albania state institutions like (Ltd), how juridical person and have their profile in the area of confections, realize work through two agreement of the FASON type ICAM and Cotonella. Until now company announce growth in the directions of the capacity of the production. Construction of the new building gives more boost development. Gradually with the growth of the items of the productions and departments, company is ready to transform in modern manufactory. Today own 180 machineries with 150 workers and it's capacity is 40.000 pieces per day.
